

Mission Bit Instructor's Assistant

Mission Bit CS Instructor's Assistants:

Mission Bit is calling on those with a passion for code and social justice to join our team and dedicate their skills towards uplifting Bay Area high school students by closing the tech divide. As a TA, you will be supporting instructors and connecting with students to provide an engaging and welcoming classroom environment!

This is a part-time position at \$22.00 per hour.

Check our website for this semester's start and end dates.

Why teach with Mission Bit?

Social justice and computer science education are used to empower minority students and females to navigate the tech industry. We believe that every student should have access to a STEM education, confidence in their abilities, and guidance for college and career aspirations.

Primary Responsibilities:

- Support instructors to teach a diverse group of students through a project based coding course covering the fundamentals of HTML, CSS and either java or javascript depending on the coding course.
- Create an inclusive and casual classroom culture based on the Mission Bit values of social justice, community, accountability, smart risks and love.
- Dedicate 1-on-1 time to help students build their own website or game project.
- Be open to reflect upon and change your teaching practices to achieve desired student learning outcomes.
- Be an ambassador of Mission Bit on-site and at field trips or events to further support the development and growth of our organization.

Minimum Qualifications:

- Current college student majoring or minoring in Computer Science or recent graduate of a Coding Bootcamp.
- Strong understanding of Java, Javascript, and programming platforms [please see course link above for specific coding/programming requirements].
- Values aligned with Mission Bit and passion for sharing CS knowledge.
- Punctual, organized, and prepared.
- Available for instructor orientation, off-site field trips, and end-of-course events.

Please send your cover letter and resume to info@missionbit.com
